DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 1-10, 21 and 22 in the reply filed on June 29, 2006 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-10 and 21-22 are rejected under 35 U.S.C. 102(b) as being anticipated by either one of Sandstrom (US Patents 6,399,261 and 6,428,940).

Each of the prior art documents describes, teaches and suggests the claimed invention of the instant application. The Examiner refers to the claims of each patent as showing the claimed method of forming a pattern with correction of identified deficiencies through pixel modulation.
